

CORVETTE GAZETTE – APRIL 2020

Central Oklahoma Corvette Club

From the President

Wow – the world is a much different place than it was a month ago. This new virus has brought our country and the world to its knees very quickly. This is an unprecedented event that has caused unprecedented repercussions. Everybody's lives have changed and our way of life is unlike anything we have experienced in 75 years. There are a lot of people being hurt by this virus – their health, their jobs, their business, their families, etc. We need to take this time to remember the important things in our lives – there will be no other good coming out of this situation other than that. But we can look forward to when we are over this crisis, we can remember the lessons we learned, and we can live our lives a little different based on these new lessons. I am certain we will come out of this stronger, smarter, and kinder to each other. This period in our lives will take some time and there will be some hardships. But I hope we use this time and hardship to turn our country back to a time where people were a bit kinder, people valued their friends a families a bit more, and people held the important things in their live a little closer. We will get through this situation – but we are all going to have to work together and help each other to get there. I hope everybody remembers how we can work together and help each other when we come out of this situation.

It's kind of hard to think about our Corvette hobby with everything that is going on right now. But I am reminded this is a lot of people's hobby and passion. And I am sure hopes of getting back to the Corvette things we love – friendship, cruises, shows, etc. – will give us the determination to get through this health crisis so we can get our world back to something a little more like normal.

Remember, you can always keep up with the club, our activities, photos, etc. via our website and Facebook group – here are the links.
